

VACANCY: Corporate Finance Analyst NL

Energy Solutions Group is in search of a proactive and driven Corporate Finance Analyst to join the team in our office in Amstelveen, the Netherlands, focusing on M&A (acquisitions) and Corporate Finance. This role is instrumental in supporting both acquisition and capital raising trajectories.

Responsibilities:

- Play a key role in corporate finance, M&A (including valuation), and financial due diligence processes.
- Dive deep into financial statements, market trends, industries, and other relevant data for comprehensive analysis.
- Assisting with preparation and analysis of financial and valuation models.
- Assisting with preparation of documents, reports and presentations using Microsoft Word, Excel, PowerPoint and other mainstream analytics software.
- Compiling and maintaining electronic data rooms.
- Manage and update transactional and marketing databases.
- Develop and sustain comprehensive market and industry research databases.
- Offer consistent support to the company's management team as needed.

Profile:

- Have a master's degree in Accounting, Finance, Economics, Business Administration or a related field, or demonstrate equivalent professional experience in corporate finance, possibly paired with a technical, fiscal or legal background.
- Preferably have at least two years of professional exposure in the financial services or consulting industries.
- Exhibit exceptional writing skills and full proficiency in the Microsoft Office suite along with electronic research methodologies.
- Show a keen interest in technology and analytics, including familiarity with data processing, analysis, and visualization tools.
- Demonstrate a high level of self-motivation, precise attention to detail, robust financial expertise, and excellent interpersonal skills.
- Be willing to undertake travel, manage demanding work situations, operate independently, meet stringent deadlines, and remain composed under pressure.
- Display a strong commitment to advancing in the green energy sector, aligning with the company's vision as a leader in this field.

We offer:

- Competitive compensation package based on your experience.
- Performance related bonus on top of gross salary.
- A full-time role of 40 hours per week.
- 25 vacation days for a full-time position.
- Flexible working hours. You will be working on-site in Amstelveen (Stroombaan 10, near Stadhart shopping center) for at least 3 days per week.
- Reimbursement for travel expenses and work-from-home arrangements.
- Company-provided laptop and mobile phone.
- 8% holiday pay.
- Additional perks: training/courses, team activities, etc.
- A comfortable and modern office, easily accessible by car and public transport, located close to the Stadshart of Amstelveen.

Who are we?

Energy Solutions Group is at the forefront of the energy transition in the Benelux region. Our mission is to create a lasting impact on the energy transition while simultaneously meeting the growing energy needs of our society in a responsible and sustainable manner. In Belgium and the Netherlands, we operate over 350 renewable energy parks featuring solar energy, wind energy, Electric Vehicle charging infrastructure, and energy storage. Our ambition is substantial, and we plan to significantly expand our portfolio in the near future.

Together with 40 colleagues, we work in Belgium and the Netherlands on groundbreaking projects in the field of sustainable energy. We offer you an invigorating work environment and the opportunity to make a positive impact on our planet.
